Technical Lead with 12+ years building and leading engineering teams across fintech, logistics, and Web3. Currently **Backend Lead at Sizelabs**, owning architecture and delivery for Wilkins, a cargo dimensioning and warehouse logistics platform (NestJS microservices, WMS/carrier integrations, OCR pipelines). Co-founded and led technical teams at TreeDeFi (\$7M+ TVL, 25 audited contracts), Galileo Tech, and Digital Advisors. Bridge business requirements and engineering execution: architecture reviews, mentoring, Agile delivery, and scalable roadmaps on Node.js, Kubernetes, and multi-cloud.

CORE STACK

LEADERSHIP

Team Leadership | Architecture Reviews | Agile/Scrum | Mentoring | Stakeholder Alignment

BACKEND

Node.js (ES7+), NestJS, Express, Go, Python, GraphQL, REST, WebSockets

DATA

PostgreSQL, MySQL, MongoDB, Redis, Firebase, Supabase

DEVOPS / IAC

Docker, Kubernetes, Terraform, GitHub Actions, Jenkins, NGINX, blue-green deploys, secret rotation

CLOUD

AWS, GCP, Azure

TESTING

Jest, Mocha, Cypress | TDD, Unit/Integration/E2E, coverage gates

BLOCKCHAIN

Solidity, Hardhat, Foundry, ethers.js, OpenZeppelin, Gnosis Safe, LayerZero

FRONTEND

React, Next.js, React Native, Tailwind, Redux

LANGUAGES

Italian (native) | English (professional) | Spanish (professional)

EDUCATION

B.Sc. Computer Engineering

Sapienza Università di Roma

CURSOR AMBASSADOR, LATAM

Selected volunteer ambassador for the LATAM region. Organize and speak at **Cursor Meetups, Cursor Hackathons**, masterclasses, and Cursor Cafe sessions across Medellin and Bogota, building a tri-lingual community (English, Spanish, Italian). Daily user of Cursor's full toolchain, integrating frontier LLMs into architecture, review, refactoring, and agentic workflows.

COMMUNITY

Creator of **Vibefy**, a LATAM developer community running tech meetups and hackathons. Also co-organize Cursor-branded events (meetups, hackathons, AI masterclasses) across Colombia.

AWARDS

10+ hackathon wins across fintech, banking, and innovation challenges (IBM, Nexi, Sanofi, TIM, Unilever, Poste Italiane, Coop., JCU Startup Weekend, and more - Italy, 2017-2019).

EXPERIENCE

Backend Lead, Sizelabs (Wilkins | cargo

Oct 2024 - Present | Hybrid, Medellin / Remote

dimensioning and logistics SaaS)

- Lead backend for Wilkins: NestJS microservices (core API, OCR, photo services), parcel/pallet measurement, and freight document processing powering customer shipping workflows.
- Own carrier and WMS integrations via TCP messaging, Redis/Bull queues, GraphQL/SOAP, and AWS S3; cut manual data entry ~75%.
- Drive microservice architecture, Kubernetes on Azure, and GitHub Actions CI/CD; cut deployment time ~60% and established 80%+ test coverage gates at PR level.
- Mentor engineers on architecture and clean code; on-call ownership of production services.

Technical Lead & Co-Founder, TreeDeFi

Mar 2021 - Aug 2025 | Remote

- Led distributed engineering team (Scrum/Kanban); designed and shipped **25 audited smart contracts** managing up to **\$7M TVL** across Ethereum and BSC.
- Architected scalable Web3 platform: backend REST APIs (Node.js, NestJS, MongoDB, Redis) on GCP/AWS/Azure with CI/CD and blue-green deploys.
- Launchpad raising **\$87K in under 2 minutes**; treasury secured via Gnosis Safe multisig and 3 external audits.

Technical Lead & Co-Founder, Galileo Tech

Feb 2019 - Jul 2021 | Milan

- Led technical teams delivering fintech and telemedicine solutions (React, Python/Node) for 15+ companies; payment integrations (Stripe, PayPal) on AWS/GCP.

Technical Lead & Co-Founder, Digital Advisors

Jan 2013 - Apr 2021 | Rome

- Led cloud migrations (AWS), full-stack delivery (React, Node.js), and mobile apps with Stripe; 25+ client products across SME and enterprise.

SELECTED PROJECTS

- **Splendor App (iOS & Android)** - Crypto Wallet & Tap-to-Pay Ecosystem (Client engagement): led architecture for an L1 blockchain protocol, React Native wallet, privacy layer, and Android NFC tap-to-pay payment flow. Managed mainnet/testnet infrastructure across 12+ dedicated servers.
- **TreeDeFi Suite**: 5 production DeFi apps, \$7M+ TVL, \$100K+ NFT revenue, 25 audited smart contracts on Ethereum and BSC.
- **Cargo Dimensioning & Logistics Platform** (Sizelabs): OCR + AI document classification at thousands/day, parcel measurement pipelines, and WMS/carrier integrations.
- **Cross-Chain Bridge**: USDT-to-TND stablecoin bridge using LayerZero OFT, enabling cross-chain asset transfers.
